RAINBOW CLOUD WALL HANGING INSTRUCTIONS
PART ONE: CUT YOUR CLOUD SHAPE

1. Take the white foam sheet and flip it over so the non-foam side is facing up.
2. Take your marker (or a pen or pencil) and draw a cloud shape on the back of the white foam sheet.
3. Use your scissors to cut out your cloud shape from the white foam sheet.
4. Take your cloud shape and place it on top of the piece of construction paper. Make sure the foam sheet is facing foam side up.
5. Take your marker (or pen or pencil) and trace your cloud shape onto the construction paper. Make your outline slightly larger than the foam cloud shape.
6. Cut out the cloud shape from the construction paper and mark the center so you know which way is right side up Place it aside for later.

PART TWO: CREATING THE RAINBOW

1. Arrange your tissue paper strips in the pattern/order you would like them to hang. The suggested order is: purple, blue, green, yellow, orange, red, orange, yellow, green, blue, purple.
2. Take your white foam cloud and tear the bottom half the paper backing off.
3. Place your white foam cloud upside down on your work surface (so the adhesive is facing up).
4. Find the middle of your cloud. Lightly mark it with a marker or pen.
5. Next, you're going to work from the center outward to place the tissue paper strips. First, take a red strip of tissue paper and fold it in half.
6. Using your center mark as a guide, stick the folded red tissue paper strip to the bottom center of the white foam cloud (on the adhesive.) Make sure to adhere at least half of an inch of folded tissue paper strip to the adhesive so that the strip is secure.

HALF AN INCH FROM BOTTOM OF CLOUD

7. Take an orange strip of tissue paper and fold it in half.
8. Adhere the folded orange strip next to the red strip in the same manner as above.
9. Continue to adhere your tissue paper strips to the back of the white foam cloud in the color order described in Step 1 of Part Two (or the color order you devised). Note: You will probably

have left over tissue paper strips depending on what pattern you created.

PART THREE: ADDING THE HANGING COMPONENTS

1. Once all of your tissue paper strips are in place, peel the rest of the paper backing off the white foam cloud and place it adhesive side up on your work surface.
2. Take your piece of yarn and fold it in half.
3. Find the top middle of the adhesive side of your cloud and stick the open end of the yarn loop to the adhesive (make sure to adhere about a half of an inch so that the yarn loop is secure.)
4. Place your construction paper cloud on your work surface with the marked side facing up.
5. Take your foam cloud and, with the adhesive side facing down/away from you, place it onto the construction paper. Remember, your construction paper cloud is slightly larger than your foam cloud. Make sure to center your foam cloud on your construction paper cloud.
6. Press the foam cloud to fully adhere it to the construction paper cloud.

PART FOUR: MAKING A SMILE

1. Take your googley eyes and place them where you want on your white foam cloud.
2. Then take the pink foam and cut out two oval shapes to make cloud cheeks.
3. Take your pink cheek shapes and place them on your white foam cloud.
4. Take your black permanent marker and draw a mouth for your rainbow cloud. (Tip: make sure to let the marker dry before touching it. Otherwise, it'll smear.)
5. Now your rainbow cloud is ready to be displayed!

MATERIALS (INCLUDED):
- 1 sheet adhesive white foam
- 1 square of adhesive pink foam
- Pair of adhesive googley eyes
- 24 tissue paper strips (rainsow colors)
- 1 piece of yarn
- 1 piece of construction paper
  1 black permanent marker

MATERIALS (NOT INCLUDED):
- Scissors
- Pen or pencil (optional)
